

Double Fillers

Thought Process for Fillers

STEP 1: Read the statement carefully and first, try to fill the missing word without looking at the options. Guess it! Predict it!

STEP 2: Choose the word from the options that best replaces the word that you had thought of initially. OR try to find most fit word from the options.

STEP 3: if you are unable to find the fit word go for elimination. Eliminate most unfit/illogical words from the answer options. Once you eliminated 2-3 words it will be easy to target answer from remaining words. Elimination will enhance accuracy and hence your score.

STEP 3: Read the sentence again by replacing the blank with the option that you have chosen if time permits.

NOTE: You must ensure that the word you have inserted in the blank enables you to read the sentence smoothly and correctly

STEP5 Even if you fail in above process then try it! Observe the words before/after the blank. Try to find clues using grammatical rules.

Grammar Rules

Preposition following a noun, adjective or verb. (Example: look at images)

a **prepositional phrase**. (Example: in spite of)

an **adverb**. (Example: they vacated the house two years ago)

a **connector**. (Example: it is raining, therefore ground is wet.)

a **conjunction**. (Example: Although he is seven, he can speak eight languages)

a **auxiliary verb** , an article , a pronoun , either subject or object. (Example: it is easier to know)

a **comparative or superlative involved?** (Example: she's taller than me)

Other General Rules

RULE1

It is very important that you **read the sentence in the question very carefully**. In most of the cases, clues about the type of information needed to fill the gap -- a person's name, a date or a fact -- can be derived by a good understanding of the meaning of the sentence itself.

RULE2

You should keep a close watch at **grammar clues**, for instance, if the article, "an" comes before the blank, then it implies that the answer must begin with a vowel. Such grammatical clues can be of great help in deciding the answers.

RULE3

You must recognize the logical structure of a sentence and pay attention to what the question requires.

RULE4

It is necessary that you **understand the context** of the sentence. While closely reading the sentence and the options given in the question, you must try to determine the tone of the missing word -- whether the required word is positive or negative in the meaning it implies

RULE5

In certain fill in the blank questions, you are required to fill more than one blank. In such cases you should use the **method of elimination** by simultaneously checking which of the options best satisfies both the entries.

RULE6

In case you are confused between two or more options, you can also apply the **hit & trial method** - one by one place each of the likely options in place of the missing word in the sentence. The option which credits maximum meaning to the sentence should be the correct answer.

RULE7

Do not spend a lot of time on one question. If you are unable to spot the correct answer, despite repeated efforts, leave the question and move forward.
